

Saltman | Quarterly

Undergraduate Research Journal
UCSD Division of Biological Sciences

AUTHOR AGREEMENT

We are a publication geared towards undergraduate scholarly research in the biological sciences. Our principle goal is to give undergraduates the opportunity to experience writing and submitting articles to a peer reviewed journal, while allowing them to present their work to the UCSD Community. Please note that many other journals require exclusive rights to experiments that they publish; if you plan on submitting the same research to another journal in the future, it is important that you are aware of the other journal's policy regarding exclusivity of rights.

Student Researcher:

By signing this agreement the author(s) agree(s) to the aforementioned guidelines and assure(s) the authenticity and originality of all research submitted in their paper.

Name (author #1) _____ Signature _____ Date:

Name (author #2) _____ Signature _____ Date:

Name (author #3) _____ Signature _____ Date:

Principal Investigator:

By signing this agreement, you hereby approve the above-mentioned research for publication in UCSD's Undergraduate Research Journal, Saltman Quarterly. In addition, you substantiate that the student(s) have demonstrated the proper academic honesty and ethics in the research methods featured in this article. Your signature below certifies that you have read the submission and authorize its publication in the Saltman Quarterly.
